

Course #3: (2hrs) Legal, Social and Psychological Consequences of a Defensive Shooting - this course is taught by one of our club members, a retired attorney who taught at the Lethal Force Institute (LFI). This presentation reviews the legal side of a defensive shooting and the aftermath that follows. He provides a more in-depth discussion of when you can shoot, and what happens after a defensive shooting. This is a must attend class for those who have secured a firearm for either home defense or for those with a Concealed Carry permit.

Note: This course has been updated to address Stand Your Ground laws and the Castle Doctrine.
